

If you believe in Sweden – vote for the Christian Democrats.

Sweden deserves better. We have turned chaos to restored order. Pushed back lethal gang violence, cut healthcare waiting lines, pressed down inflation and ensured that families have more left in their wallets. Yet It is not enough. The Christian Democrats are not satisfied to solely turn around bad trends and make certain Swedes have what can be considered the bare minimums in a welfare state. Not dying in a healthcare waiting line, getting shot in the street, or mugged at the gas station while refueling.

Far too many citizens anxiously await receiving healthcare. Your postal code must not determine what level of healthcare you receive. For this reason we must impose a national responsibility for healthcare and then remove the 21 administrative regions. If Swedish society is to stand strong we need to utilize all of Sweden's potential to produce. For that reason, we are going to invest in what builds a stronger Sweden: new nuclear power for stable, fossil-free energy. Infrastructure so that our industry can produce and our everyday life can function. Our soil, our forests and our mines, the bases of our wealth. And invest in a business climate that leads to the tech companies of tomorrow, being created in our country. But the foundation for everything is our community, which can only be built from below but our families and civil society. That is where good values are formed, that can ensure a good society.

Believe in Sweden. Our home that we wish to build stronger. Believe in Sweden's families, seniors, youth and businesses.

**SWEDEN IS A LAND BUILT ON
RESPONSIBILITY. ON
COMMUNITY. ON A WILL TO
CARE FOR ONE ANOTHER. WE
BELIEVE THAT WITH BRAVE
DECISION-MAKING AND THE
RIGHT INVESTMENTS,
SWEDEN CAN RISE.**

Believe in Sweden. Vote for the
Christian Democrats.

FOR FREEDOM IN EVERYDAY LIFE

Family is essential for a good and well-functioning society. We have strengthened the families through increased power of choice within parental leave, lowered taxes and bringing forth Fritidskortet.

We oppose the forced quotas of the red-greens within parental leave, to ensure **families are free to decide** for themselves. Sweden should be a safe country to grow up in with small preschool groups, more children that can grow up in safe homes and where teachers, not screens, are in charge in classrooms.

FOR EQUAL HEALTHCARE

Waiting lines should not be the normal state in healthcare. They are the result of an outdated and bureaucratic healthcare system. Healthcare needs to be a national responsibility and we need to remove the regions in charge of healthcare. We have shortened waiting lines, increased healthcare spots and worked to strengthen close care, so that more can receive help closer to their homes.

But **the work is not yet complete**. We want to keep prioritizing the patient over bureaucracy, give healthcare staff better conditions and modernize today's regional system so that care is given based on need – not based on your post code.

SUPPORT SWEDISH VALUES

Our **sense of community** must become stronger and Sweden be molded together. Swedish values should be preeminent in our country, and gang crime, parallel societies and islamism must be fought. Burka and niqab should be banned. No woman should have to live under oppression. Safety needs to be in place in all of the country. Police need to be readily available in public squares as well as stopping gang recruitment online.
